Subject: microsoft settlement

Another AOL suit? Will this ever end. It is time to get the MSFT settlement done and get the company out of court. My retirement is tied to the MSFT shares I purchased over the years, not the federal government, and I need MSFT to be free to pursue its software business. The settlement benefits all parties. How is the gvt. protecting me from MSFT? I still haven't figured that one out. Anyway I hope my little plea won't go unnoticed. Let the settlement proceed. Bob Bleakley, Tarpon Springs, Fl.
